MEMORANDUM FOR: Gen. Andrew J. Goodpaster, Staff Secretary  
The White House

SUBJECT : Visit of French Resistance Veterans  
to the U.S., 21-28 June 1959

1. The Veterans of Strategic Services have invited a group of 45 veterans of the French Resistance to come to the United States during the week of 21-28 June to commemorate the close collaboration between OSS and the French Resistance during World War II. This is similar to a visit which members of the French Resistance made to Great Britain two years ago at the invitation of SOE. The visit has been planned with the assistance of CIA and Mr. Robert Murphy of the Department of State.

2. An Honorary Committee has been organized, chaired by The Honorable Robert Woods Bliss, and including the Vice President, Governor Rockefeller and others. I have attached a list of this Committee.

3. The Frenchmen to visit the United States have been chosen on the basis of lots from among 10,000 who participated in the Resistance. In addition, some six who worked with OSS are also coming, and there is a possibility that one or more Cabinet members, such as Jacques Soustelle, may come for a portion of the trip. A list of the Frenchmen is attached. They have been carefully screened and there are no Communists among them, *we are assured.*

4. The visitors will spend the first portion of the week in New York City where they will be received by the Mayor and will see the city. They will be entertained at a dance and in the homes of OSS veterans. The schedule for their visit to Washington is attached.
